

Oglaend System Group awarded Gullkronen 2015

(Klepp 09.02.2015) Rystad Energy's "Gullkronen" awards companies, teams or people who have shown outstanding achievements on the NCS during the previous year.

Gullkronen 2015 took place on Wednesday 4 February at Wallmanns Oslo. Nine prizes were awarded - four for E&P, three for the oil service and an honour award.

Globetrotter of the year:

Jury's reasoning:

The company has built a successful business abroad over several years with recent contract wins including major projects such as Ichthys, Mariner, Filanovskaya, Yamal, Egina, UmLulu, Prelude, Quad 204 and Clair Ridge.

The company has invested in engineering support in London, Paris, Kuala Lumpur, Dubai, St. Petersburg and Houston to secure a position higher in the value chain to get its systems designed into a project at an early stage.

2014 has been an all-time high with revenue growth of 45%, and with 76% of revenue from abroad.
